

QUESTION BANK - MODULE 3

Course: BCS402 - Microcontrollers

Module Title: Memory Organization and Interfacing

Course Outcome: CO3: Apply ARM programming concepts for memory and I/O interfacing.

Q.No	Question	Marks	CO	RBT Level
1	Explain ARM memory organization and memory map.	7	CO3	L2
2	Explain stack operation in ARM with example.	6	CO3	L3
3	Explain subroutine and parameter passing in ARM.	7	CO3	L3
4	Explain load and store multiple instructions.	7	CO3	L2
5	Write program to sort array using ARM assembly.	10	CO3	L4
6	Explain memory interfacing techniques.	6	CO3	L2
7	Explain I/O interfacing in ARM.	5	CO3	L2
8	Explain addressing modes of ARM.	7	CO3	L2
9	Explain procedure call standard (AAPCS).	5	CO3	L1
10	Explain ARM debugging techniques.	5	CO3	L2
